Dear Mr Hall,

ARCHAEOLOGICAL MONITORING PLAN PROPOSED DEVELOPMENT OF AGRICULTURAL LANDS ON PORTION 19 OF FARM 100 (DE GOREE), ROBERTSON

Heritage Western Cape (HWC) letter dated 13 April, 2011 (Unique ID 1289), refers:

In accordance with the findings and recommendations contained in the Phase 1 Archaeological Impact Assessment undertaken by ACRM, a proposed Archaeological Monitoring Plan is presented.

Monitoring will be done by Mr Jonathan Kaplan of the Agency for Cultural Resource Management.

The proposed activities will include the following:

1. Vegetation clearing operations and removal of top soils from the affected land parcels will be monitored by the archaeologist.

2. Monitoring will be done twice a week. Monitoring days/times will be determined by the archaeologist in consultation with the client and in accordance with the Scope of Works.

3. All artefacts uncovered or exposed during monitoring will be described and logged with a GPS.

4. Selected artefacts will be photographed.

5. No artefacts will be collected.

6. A monitoring report will be submitted to HWC for approval.
Yours sincerely

Jonathan Kaplan
